### Big Business Features for your Small Business Needs!

The only corded/cordless office phone with patented extended range up to 2000 ft! Expand your phone system up to 16 wireless stations. The auto attendant answers incoming calls and routes the callers to a specific handset, person or voicemail.

#### 2000 ft. Patented Extended Range

The ultimate flexibility! Take your conversation and phone system with you around the office. Our long-range cordless handset delivers the clarity you and your business demand. And with a 2,000 foot range, you will have the confidence of knowing your calls won't drop out in your office environment.

#### Cordless Handset Flexibility

Each cordless handset delivers all of the features you need from your business phone – at your desk or clip at your side. Access your voicemail, page another colleague or hold a speakerphone conference call anywhere in your office.

#### Easily Expandable up to 16 Stations

Add a remote handset station anywhere there's an electrical outlet! Functions like a full feature PBX office system that provides call privacy without the installation expense and hassles. Simply plug and go!

#### FEATURES:

Expandable  
up to 16 Stations
